

SEANERGY

the Sustainability EducationAl programme for greeNER fuels and enerGY on ports

Module #10: Communication - PART 2

Course coordinator:

Sandra Roselló (FV), Marina Arroyo (FV), Elena Gascón (ATPERSON)

Name of the organization, country:

Fundación Valenciaport (Spain), ATPERSON (Spain)

Email: srosello@fundacion.valenciaport.com,

marroyo@fundacion.valenciaport.com, europa@atperson.com

Contents

How engage port stakeholders?

Port case studies: Port of Valencia

- Valenciaport
- Fundación Valenciaport
- Innovation committee
- **Ecoport Initiative**
- Alianza Net Zero Mar
- Opentop
- Other initiatives

Valenciaport

SEANERGY

The Port Authority of Valencia, which trades under the name of Valenciaport, is the public body responsible for running and managing three state-owned ports along an 80km stretch of the Mediterranean coast in Eastern Spain:

Valencia: interoceanic and urban port

- Combination of Import/Export containers and interoceanic transit container traffic
- Cruise and ferry traffic
- Recreational sailing

Sagunto: industrial port

- Specialised in iron and steel, vehicle and special transport
- Short-distance containers
- Bulk goods
- Recreational sailing

Gandía: local port

- Conventional general cargo: paper and wood
- Recreational sailing

Valenciaport

Valencia: interoceanic and urban port

Fundación Valenciaport

Fundación Valenciaport is an Applied Research, Innovation & Training center providing services to the port and logistics cluster. This initiative of the Port Authority of Valencia has enjoyed the collaboration of notable businesses, universities and institutions from the port community.

Since its establishment, it has developed projects in more than 60 countries, primarily Mediterranean nations, as well as from the rest of Europe, Asia and Latin America.

Innovation Committee

SEANERGY

Participative **forum** to discuss the agenda and actions for innovation of the Valenciaport cluster.

ECOPORT

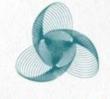

This is an innovative initiative for continuous improvement in port management and strategy, which is in line with the Quality of Service policy in place at the Port Authority of Valencia.

ECOPORT

SEANERGY

ECOPORT II

aims facilitate obtaining environmental certification and support the implementation of **Environmental** Management Systems in the main companies of the Ports of Sagunto, Valencia and Gandia.

ECOPORT PROJECT

The purpose of the **ECOPORT** Project is to contribute to establishment of an environmental policy the Port Community Valencia in line with Community legislation this in area.

ECOPORT III

It is an initiative that focuses on continuous improvement through the use of advanced statistical tools, knowledge and collaboration of the entire port community, to move towards a new sustainable and decarbonized economy Valenciaport.

ECOPORT

The companies participating in the ECOPORT initiative have voluntarily formulated the following environmental objectives:

Increase in the percentage of waste valorized.

Decrease water consumption by 1%.

Training and awareness-raising of at least 500 hours/person.

Reduce fuel consumption by 1%.

Reduce electricity consumption by 1%.

Calculate the carbon footprint.

Participation in Ecoport III.

ECOPORT Communication activities

Activities carried out by the Port Authority of Valencia within the framework of the ECOPORT initiative:

- Newsletter: Monthly tips
- Environmental Publications
- 2 environmental training booklets per year
- 3 environmental bulletin per year
- Organization of the Environment Week and organization of the Environmental Day event on June 5
- · Participation in environmental fairs such as Emobility and Ecofira

*The topics for the booklets and newsletters are selected by working groups. These groups include "representative companies" elected by vote.

ECOPORT Communication activities

SEANERGY

ECOPORT as a mark of excellence in environmental good practices

Alianza Net Zero Mar

It is a non-profit association that aims to accelerate the decarbonization and electrification of the maritime sector and Spanish ports, being available to all agents, companies and institutions that want to join efforts to reduce polluting emissions generated by port infrastructures and maritime transport.

Alianza Net Zero Mar

SEANERGY

Working groups

Roadmap on Decarbonisation of the sector

Decarbonisation of ships during navigation

Alianza Net Zero Mar

Types of members

Opentop, the Valenciaport innovation hub

The main objective of this initiative is to bring innovation closer to the companies and entities working in the three ports managed by the Port Authority of Valencia with the aim of boosting their competitiveness.

What does Opentop do?

- Challenge the best minds to solve challenges in the Opentop hackathons
- Develop solutions with the best startups that can apply their activity in the port logistics ecosystem
- Help large corporations with common needs and synergy opportunities to grow

What does the Valenciaport Hackathon offer you?

- Challenges proposed by large corporations in the sector
- Job opportunities and visibility in front of large companies
- Access to motivational talks specialists
- Development of important skills such pitch defense in front of a professional jury

Partnership:

We connect talent with the leading companies in the sector to grow faster and go further. The industry needs it and we know how we can help!

Business Creation:

We are unique in leveraging the value proposition. We have core focus of helping startups & scaleups secure strategic business connections!

Industry knowledge:

Discover a sea of opportunities with industry experts, corporate partners and other startups & scaleups that are also growing.

Business Growth Program

Tailored program:

Customised 6-month program in which a maximum of 5 startups are selected for full and real attention.

Financing:

Access to the main investors in the startup ecosystem. And startup investment vehicle coming soon!

Growth hub:

Exclusive hub where you can connect and meet with the ecosystem in the heart of the Port of Valencia. Your place for networking and support.

CHALLENGE 03

Port energy transition and decarbonization

Other initiatives

Collaboration with universities

Valenciaport is committed to promoting scientific knowledge as a basis for innovation. In this way, relations with the surrounding universities are fostered, opening the ports to the academic world. Specifically, agreements have been reached with the University of Valencia and the Polytechnic University of Valencia for the creation of chairs with the aim of generating top-level port knowledge in its hinterland.

Other initiatives

Collaboration with universities

The <u>Valenciaport Chair of Port Economics</u> was established with the objective of conducting indepth research into the relationship between port business and the evolution of the international economy, as well as the parameters that allow the social impact of its activities and their efficiency to be measured.

The <u>Valenciaport Chair of Port Innovation</u> is dedicated to aligning the research conducted at the university with the evolving challenges faced by the port industry in the context of Industry 4.0.

Other initiatives

Guided visits

Pre-booked visits to the Port Authority of Valencia's facilities in the Port of Valencia are available to:

- School visits
- Specialised Training Centres
- Saturday visits

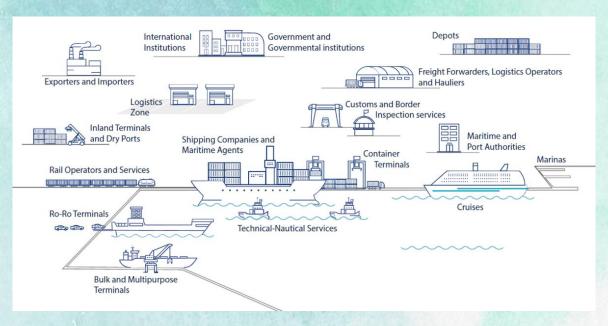

This is a great way to strengthen relationships with local stakeholders

Conclusions and take home message

Through all these actions and initiatives, the **Port of Valencia** is able to strengthen the relationship with all its stakeholders, listening to their needs and creating a collaborative environment to enhance its essence:

INNOVATION

Conclusions and take home message

Learning objective #1 – Examples of stakeholders engagement in ports

- Associations whose members are part of the port community where a joint strategy is defined as a port in terms of Energy Transition.

- Associations that connect the port community with industry and companies from other sectors such as energy, to develop joint solutions by applying the know-how of the sector with that of technology.

Conclusions and take home message

Learning objective #2 - Valenciaport case study

- Initiatives used by the Port of Valencia to increase engagement with stakeholders
